Profile

I'm a frontend engineer with 5+ years of Experience and strong proficiency in HTML, CSS, JavaScript (ES6+), and React. I enjoy building clean, responsive, and user-friendly interfaces. I focus on writing maintainable code, improving performance, and staying current with modern frontend trends. I'm excited to contribute to teams that value great design and thoughtful development.

Experience

Real-Time Attendance Application ↗

2025

Developed a real-time attendance tracking system that automates student/staff check-ins using verification code.

Implemented secure authentication, live data synchronization, and analytics dashboards for monitoring attendance patterns to ensure scalability and efficient data processing.

Hotel Reservation and Booking System ↗

2023

Designed and developed a full-stack web application for online hotel booking and payments.

Implemented secure user authentication, dynamic room availability management, and integrated payment gateway APIs.

I ensured responsive design and efficient database interactions for a smooth user experience.

Upfoods Web Application

2022

I contributed to the development of user authentication features, including login, sign-up, and sign-in modules. Optimized authentication workflows to improve access speed and implemented enhanced security measures for user data protection.

Education

Higher National Diploma, Federal Polytechnic OKO

2020 – 2025

HND Certificate in Computer Science

Anambra, Nigeria

Skills

Front-End Development — Proficient

HTML,CSS, JavaScript, React.js, React Native, Next.js, TypeScript, Tailwind CSS, etc.

Version Control and Collaboration — Proficient

Git, Github

API Development and Integration — Proficient

GraphQL and RESTful API

Testing — Proficient

Unit Testing, End to End Testing

Languages

**ENGLISH, YORUBA & IGBO
LANGUAGE**

Certificates

KODECAMP 3.0 BOOTCAMP 
HTML, CSS, Bootstrap, Javascript
